

A Low-Waste Lunch Program

High School Project

STUDENT Noah Bennett	STUDENT ID HS-2048	COURSE SCH-12 · High School Project
INSTRUCTOR Ms. Evelyn Park	INSTITUTION Cedar Ridge Secondary School	DUE DATE 18 July 2026
WORD COUNT 760		

Project brief

This assignment examines A Low-Waste Lunch Program through a focused question, documented evidence, and a conclusion that stays within the supplied material.

Plan and milestones

Measure	Evidence
1	The procedure controls the main variables, records units at every step, and can be repeated by another student.
2	The recorded observations show a consistent pattern. Each result is connected to the question without

- ☒ The procedure controls the main variables, records units at every step, and can be repeated by another student.
- ☐ Adopt the lowest-risk option first, measure the stated outcome, and review the decision after the pilot.

Outcome

The result moves in the expected direction and remains within the stated measurement limits.

Reflection

The first plan was simplified after testing. A second iteration would collect more observations before changing the final design.
