Hiring Committee
Lumen Labs

Application — Computer Science Graduate

Dear Hiring Committee:

I am applying to Lumen Labs because this opportunity calls for the same combination of judgement and execution that has shaped my work.

Computer science graduate focused on accessible web products and applied machine learning. Combines strong software fundamentals with internship experience, community leadership, and project work grounded in real user needs.

The evidence I would bring is concrete:

- First Class Honours · Dean's List 2023–2026 · Capstone selected for the Faculty Innovation Showcase.
- Built an offline-first study companion for low-bandwidth schools using React, TypeScript, and IndexedDB.

What attracts me to Lumen Labs is the opportunity to apply that experience with a team that values clear decisions, careful execution, and measurable outcomes.

I would welcome the opportunity to discuss the role and the contribution I could make.

Sincerely,

Amina Yusuf

Computer Science Graduate
